mikemac wrote on Sat, 11 March 2017 12:30 Before I vote, how fast do you expect the Build #4 - '040 board to be? A '040 running at 8Mhz wouldn't be of much interest TO ME, even if it did run Linux. If the expected CPU speed was above 25MHz or so, then that would be a lot more interesting to me.

- Mike

Way too early to tell. Need to get past stages 1-3 first. I *guess* somewhere in the 16-25 MHz region.
